

“American Horse”

American Horse was a Lakota chief, statesman, educator and historian. He was born in 1840 and died in 1908. During his life, he was very active and held many positions which included being a U.S. Army Indian Scout and a headliner in Buffalo Bill's Wild West Show.

My painting, which depicts American Horse, features an 1876 (38-star) American flag as the background. He is painted on sheet music, which was copyrighted in 1902. His headdress and breast plate are original metal designs by 3DM Metal Arts.
