

Under the Milky Way

“Under the Milky Way” is an original mixed-media art piece, combining photography and acrylic paint on a Birch wood panel, measuring 9" x 12". It was created in 2023.

This piece was named after one of my favorite songs by the Australian alternative rock band the Church. It was inspired by the Sci Fi pulp art of the 1950's.

The photograph is one I took of the Cargill Animal Nutrition plant, located at 2100 S. Robinson, in Oklahoma City, OK. I thought it looked like a great space port.
